SUMMARY

Hello! I am a Graphic Designer/Web Developer who enjoys being immersed in a creatively charged atmosphere, and is passionate about design and learning new technologies. Currently, I am studying Full Stack Web Development at Lambda School, where I have gained experience with HTML, CSS, JavaScript, React.js, Node.js, Knex.js, and more. These experiences, along with working 14 years in the customer service industry, have taught me creative problem-solving skills, how to work in teams, and effective communication skills. Personally, it is my goal to constantly push myself to learn new things so that I may grow as a designer, developer, and as an individual.

EXPERIENCE

Oct 2019 - Nov 2019

Safe Mothers, Safe Babies | Web Developer

- Worked in a team of 8 as part of Lambda Labs to create a two part application.
- Created an emergency SMS application allowing pregnant Ugandan mothers to request transportation to health facilities.
- Built a administrative dashboard that allows admin to interact with mother/driver data collected in Uganda.
- Tech Stack used : [React/Redux](#), [Node](#), [Express](#), [PostgreSQL](#), [Frontline SMS](#), [Geolib](#)

2018 - 2019

5150Whips.com | Web Developer & Designer

- Hired to refactor, fix, maintain, and make updates to existing website
- Currently working with client to rebuild and redesign a new website that better represents 5150 Whips company brand and theme.
- Technologies used: [Bootstrap](#), [CSS](#), [JavaScript](#), & [jQuery](#).

2017 - 2018

Cryptocurrency | Graphic Designer

- Designed a cover for a company booklet presentation explaining cryptocurrency, mining cryptocurrency, and how to build and operate a cryptocurrency mining rig.
- Employed the use of [Adobe Illustrator](#) and [Adobe InDesign](#) to create the cover.
